I'm a web developer and 'tinkerer' with a background in linguistics. I thrive off of breaking down new, hard concepts into simple, beautiful, and interactive experiences.

Knowledge and Skills

Proficient	Developing
JavaScript, Node.js HTML5, CSS3, Git Angular, Backbone, jQuery Karma, Mocha/Chai, Protractor Grunt, Browserify, RequireJS, Express	Java Ember, TypeScript Bootstrap, Sass, Less MongoDB Photoshop

Projects:

Track Yourself: Utilizes D3 visualizations to graph user lifestyle and habit data
- □ Angular.JS, MongoDB, Express, MongoDB, Sass, Browserify, Karma, Mocha/Chai, Protractor, D3, Git
  - □ *Built in a week with two other developers and one designer.*

Jrney: Finds and sorts interesting pitstops along a given Google map route
- □ Backbone, RequireJS, Google Maps API, Mocha/Chai, Casper.Js, Less, Git
  - □ *Built in a week with three other developers*

Experience

JavaScript Developer : SaltBox, Seattle, WA (September 2014 – October 2014)
- □ *Built an API with Gamification pieces for a Fortune 500 consulting services firm utilizing the Experience API (xAPI)*
- □ *Wrote entire project in BDD/TDD style, with unit and integration testing using Mocha, Chai, & Phantom.js*

Claims Data Assistant - Technical Team : Trupanion, Seattle, WA (April 2013 – March 2014)
- □ *Exceeded my daily work quota on a consistent basis; always pushed myself to develop better time management strategies.*

Barista : Caffe Ladro: Espresso Bar and Bakery, Bellevue, WA (November 2011 – January 2013)
- □ *Created a sense of community for customers while multi-tasking in a high-stress, fast-paced environment with a close team.*
